Explore the possibilities.

The Porsche 911 is a thoroughbred sports car, yet surprisingly practical in everyday use.

With our elegant and flexible roof transport system, you can instantly expand its already generous load-carrying capability. You will also discover that uncompromising performance means you never have to compromise on luggage.

▲ Roof transport system

Choose from three base systems for Coupé, Cabriolet and Targa models. Each can be combined with a range of attachments for various types of load up to a maximum of 75 kg. All three systems come with security caps and locks for optimum anti-theft protection.
